

Europubhealth selection criteria for Visiting Professors

To be eligible to **join the Europubhealth Master Course as a visiting professor**, applicants must fulfill the following requirements:

- PhD or recognized equivalent in public health or related disciplines
- A five year experience in Education/Research
- Language proficiency according to the teaching language of the host institutions
- Conformity of documents provided: application file duly completed, CV (Europass format), motivation letter, passport copy. In the motivation letter, the candidate must explain his project and how he/she will contribute to the Europubhealth Masters course.

All applicants must demonstrate **academic experience and/or professional references**, show actual **willingness to develop long term projects** and provide real **added value** to the Europubhealth master course program.

A Selection Committee composed of representatives of the 7 Europubhealth partner institutions meets twice a year in February and July to study the eligible applications. The coordinating institution of the Consortium notifies each applicant of the results and organizes the final registration for the EUROPUBHEALTH master course.
